Product Overview

High-Efficiency Commercial Ice Production

This commercial cube ice maker is engineered for high-volume environments, ensuring a reliable and consistent supply of ice for busy establishments. Featuring a durable stainless steel construction, the unit is designed for longevity, hygiene, and ease of cleaning. Its self-contained refrigeration system and insulated storage bin optimize performance while minimizing energy waste, making it an ideal solution for restaurants, bars, hotels, and cafes.

Key Features

Core Features

- Automatic ice making system for hands-free operation
- Large condenser for enhanced machine performance
- Durable stainless steel exterior
- Insulated storage bin to maintain ice quality
- Self-cleaning function for simplified maintenance
- Adjustable legs for leveling on uneven floors

Ideal Applications

Milk Tea Shops, Coffee Shops, Convenience Stores, Hotels, Restaurants, Bars
