Overview

High-Efficiency Commercial Ice Solution

This commercial cube ice maker is engineered for high-volume environments, providing a reliable and consistent supply of ice for busy establishments. Featuring a durable stainless steel construction and an automatic ice-making system, it minimizes manual operation while ensuring optimal hygiene through an integrated cleaning cycle. Its compact, self-contained design makes it an ideal choice for space-constrained settings like coffee shops, bars, and restaurants.

Key Features

Build Quality

Stainless Steel Exterior • Insulated Storage Bin

Ice Shape

Cube

Automation

Automatic Ice Making, Automatic Cleaning Cycle, Automatic Shut-off

Technical Specifications

Performance Highlights

1 High Efficiency

Large Condenser

Installation Requirements

- Water supply connection
- Drain connection
- Freestanding installation

Applications

Ideal For

Milk Tea Shops, Coffee Shops, Hotels, Restaurants, Bars, Convenience Stores
