Product Overview

High-Volume Commercial Cleaning Solution

This automatic commercial dishwasher is engineered for high-volume dishwashing environments such as hotels and restaurants. Constructed with durable stainless steel for enhanced hygiene and longevity, it features an automated conveyor system designed to streamline kitchen workflows. With a robust 27kW power rating and a capacity of 2000 pieces per hour, this machine ensures consistent sanitation standards and improved operational efficiency.

Technical Specifications

Wash Capacity

2000 pcs/H
Pieces per Hour

Voltage	380 V
Power Consumption	27 kW
Control System	Mechanical control

Dimensions and Mobility

Overall Dimensions	1600 x 850 x 1540 mm
Mobility Features	Mounted on wheels, Caster system

Usage

Suitable Applications

Hotel • Restaurant • Cafeteria • Food Service
