

Commercial Dishwasher and Sanitizer

This commercial dishwasher provides efficient cleaning and sanitization for dishes and utensils. It is designed to meet the hygiene standards of restaurants and hotels.

Product Overview

Professional Commercial Sanitization

This commercial-grade dishwasher and sanitizer is engineered for high-volume environments requiring rigorous hygiene standards. Built with robust components, it ensures efficient and reliable operation for continuous daily use. The system is designed to streamline cleaning workflows while maintaining optimal sanitation levels for professional applications.

Technical Specifications

Model Identifier	Z-0.42/8-PA
Construction	Industrial Grade, Piston-Driven, Safety Cage Equipped

Performance Metrics

Key Performance Features

- High-efficiency electric motor
- Durable piston-driven mechanism
- Integrated safety enclosure
- Designed for continuous operation
