

Commercial Dishwasher and Sanitizer

This is a commercial dishwasher and sanitizer designed for restaurant use. It efficiently cleans and disinfects dishes, ensuring hygiene in food service environments.

Product Overview

Professional Sanitization Solution

This commercial dishwasher and sanitizer is designed for high-demand environments requiring efficient cleaning and disinfection. Built with industrial-grade components, it ensures consistent performance and reliability during heavy usage cycles. The system integrates advanced sanitization protocols to meet strict hygiene standards, making it an ideal choice for professional kitchens and food service facilities.

Technical Specifications

Model Identifier	W-0.48/8-PA
Pump Design	Twin-cylinder
Motor Protection	Electric motor with protective fan cover
Control System	Pressure switch integrated

Build Quality

Mounting	Sturdy base mount
Application Compatibility	Pneumatic applications, Industrial use, Sanitization
