

Commercial Display Freezer with Curved Glass Lids

This commercial display freezer is designed with curved glass lids and a glass door for showcasing frozen treats. It maintains a consistent temperature to ensure products remain frozen and fresh.

Product Overview

Commercial Showcase Freezer

This commercial display freezer is designed to maximize product visibility and appeal, featuring curved sliding glass lids that provide a clear view of frozen goods. Built for reliability in high-traffic retail environments, it incorporates a high-COP compressor with non-CFC refrigerants for efficient operation. The unit includes practical organizational features like internal basket support and mobile casters, making it an ideal choice for ice cream and frozen food display.
