

Commercial Display Refrigerator with Heating

This display refrigerator is designed for commercial use and features both heating and cooling functions. It includes adjustable shelves and interior lighting to effectively showcase food and beverage items.

Product Overview

Versatile Commercial Display Solution

This compact commercial display unit offers a unique dual-functionality, capable of heating contents between 35°C and 50°C. Designed for retail environments, it features a transparent glass door and interior lighting to maximize product visibility and appeal. Its efficient design and compact footprint make it an ideal choice for showcasing beverages or food items in limited counter spaces.
