

Commercial Electric Baking Oven

This commercial-grade electric oven is designed for baking and cooking various food items. It features a stainless steel construction and digital temperature controls for precise and consistent heating.

Product Overview

Commercial Electric Baking Oven

This commercial-grade electric baking oven is designed for high-volume performance in professional kitchens, bakeries, and restaurants. Built with a durable 430 stainless steel body and featuring double glass doors, it offers both robustness and excellent thermal efficiency. With precise temperature control up to 400°C and a versatile 1-layer, 2-tray capacity, it provides the reliability needed for consistent baking results.
