

# Commercial Electronic Weighing Scale

This commercial electronic scale is designed for precision weighing in retail, food service, and industrial environments. It features a stainless steel platform, digital display, and keypad for entering unit prices and tare weights.

## Overview

### Precision Weighing Solution

This commercial electronic weighing scale is designed for high-precision measurement tasks, offering versatility with multiple units including grams, pennyweights, and troy ounces. It features a compact, user-friendly design with a clear 10mm LCD display, making it ideal for various professional weighing applications. With essential functions like auto-zero, tare, and auto-off, this scale ensures efficiency and battery conservation in busy work environments.

## Technical Specifications

### Capacity

**500 g**

Grams
