

Commercial Exhaust Fan

This is an electrical fan used for exhausting air. It is suitable for commercial buildings.

Overview

High-Performance Commercial Ventilation

This commercial exhaust fan is engineered to provide efficient air circulation and ventilation for large-scale facilities. Designed for durability and consistent airflow, it helps maintain optimal indoor air quality and temperature control in demanding environments. Its robust construction ensures reliable operation, making it an ideal choice for modern commercial and industrial buildings.

Key Performance Metrics

Airflow Capacity

5000 m³/h
Airflow

Operating Noise

65 dB

Technical Specifications

Compliance Standards

CE • ISO 9001

Power Supply

220V / 50Hz

Installation Type

Wall-mounted, Roof-mounted

Features

Primary Benefits

- Corrosion-resistant housing
- Energy-efficient motor design
- Overheat protection system
- Low-maintenance blade assembly
