

# Commercial Food Crushing and Culling Machine

This crushing and culling machine is designed for commercial food preparation and processing. It features a refrigerated base with two doors and a top section with multiple ingredient containers.

## Product Overview

### Professional Food Preparation & Storage Solution

This commercial-grade crushing and culling machine is a versatile workstation designed for high-efficiency food processing environments. It combines a durable granite countertop for heavy-duty preparation with an integrated refrigerated base featuring two-door storage. The top section is equipped with multiple ingredient containers, making it an ideal all-in-one solution for organized and hygienic food assembly.

## Design & Construction

### Material

Stainless Steel • Granite Countertop

### Storage Configuration

- Two-door refrigerated base
- Integrated top ingredient containers
- Spacious granite work surface

## Technical Specifications

Core Capabilities	Crushing, Culling, Refrigerated Storage, Food Preparation
Number of Doors	2
Application	Commercial Food Processing and Preparation
