Product Overview

Professional Baking Performance

This commercial-grade gas baking oven is engineered for high-volume bakery and pizza applications, offering consistent and efficient results. Featuring robust stainless steel construction, it is designed for durability and ease of maintenance in demanding kitchen environments. With precise temperature controls for both upper and lower flames, this unit ensures optimal baking conditions for a variety of culinary tasks.

Technical Specifications

Model	MFA-11L
Voltage	220 V
Power	6.6 kW
Weight	63 kg

Dimensions

External Dimensions	1080 x 635 x 600 mm
Internal Chamber Dimensions	630 x 565 x 230 mm

Key Features

Control Features

- Independent temperature controls
- Digital display
- Viewing window
- Interior lighting

Construction	Stainless Steel, Commercial Grade
