Product Overview

Professional Performance

This commercial-grade blender is engineered for high-demand environments, featuring a robust 2000W motor capable of reaching speeds up to 25,000 RPM. Designed for versatility and safety, it includes a durable stainless steel housing and an unbreakable 2.0L Tritan jar. With intuitive program controls for smoothies, ice crushing, and pulse functions, it delivers consistent results for professional food preparation.

Technical Specifications

Motor Power

2000 W

Power Output

25000 RPM

Max Speed

Jar Capacity

2 L

Blade Configuration

6 stainless steel blades

Housing Material

Stainless Steel

Jar Material

Unbreakable Tritan

Features & Controls

Preset Programs

- Ice Crushing
- Smoothie Making
- Pulse

Control Interface

Stepless electronic control switch

Safety Mechanisms

Double safety lock in lid, Double safety lock in base, Anti-slip rubber feet

Compliance & Standards

Certifications
