

# Commercial Ice Cream Display Freezer

This compact ice cream display freezer is designed for commercial use. It features a glass door for clear product visibility and adjustable shelves for flexible storage.

## ADDITIONAL IMAGES

## Product Overview

### Professional Ice Cream Display Solution

This commercial-grade ice cream display freezer is engineered for optimal product preservation and visual appeal. Featuring a robust compressor cooling system and precise mechanical temperature controls, it maintains a consistent environment between -18°C and -25°C. Designed for retail efficiency, this unit offers a compact footprint while maximizing product visibility for high-end ice cream presentation.

## Performance

### Refrigerant

R134a

### Temperature Range

**-18 °C**

Min Temperature

**-25 °C**

Max Temperature

### Cooling System

Compressor cooling

## Electrical Specifications

### Rated Power

180 W

### Daily Consumption

2 kWh/24h

### Voltage/Frequency

AC220V/50Hz

## Dimensions & Weight

### Product Dimensions

Attribute	Value (mm)
External Dimensions	595 x 570 x 820
Light Box Height	140

### Weight

**46 kg**

Net Weight

**50 kg**

Gross Weight

### Packaging Dimensions

645 x 620 x 880 mm
