

# Commercial Ice Cream Display Freezer with Curved Glass Top

This ice cream display freezer is designed for commercial use in parlors and restaurants. It features a curved glass top for product visibility, stainless steel containers, and integrated lighting.

## Overview

### Professional Ice Cream Display Solution

This commercial ice cream display freezer is engineered for high-traffic environments like ice cream parlors, cafes, and restaurants. Featuring a sleek curved glass top, it offers optimal product visibility while ensuring your inventory remains at the perfect serving temperature. With a robust dual-compressor system and air-cooling technology, this unit provides reliable performance and consistent storage conditions for up to 12 pans of product.

## Technical Specifications

Refrigerant  
R404a

Overall Dimensions 1275 x 938 x 1418 mm

Power Rating 1700 W

Operating Temperature -18 to -22°C

Cooling Method Air cooling

## Capacity & Configuration

Pan Capacity

**12 1/4 size**  
Pans

## Construction & Safety

Electrical Safety Specs

Parameter	Value
Earthing Resistance	63 mΩ
Leak Current	0.415 MA

Glass Type Tempered glass

Insulation Double density foam

## Features

Door Type Sliding, Curtain
