Overview

Professional Ice Production

This high-performance commercial ice maker is engineered for rapid, consistent ice production, capable of generating 30KG of ice daily. Featuring a versatile water intake system that supports both manual filling and direct pipeline connection, it is suitable for diverse professional and home environments. The unit includes advanced features such as an intelligent control panel, UV sterilization, and a transparent window for monitoring the ice-making process.

Performance Metrics

Daily Ice Capacity

30 KG

Daily Output

32 pieces

Ice Cubes per Cycle

Cycle Time

10 to 15 minutes

Technical Specifications

Water Tank Capacity	4 L
Water Intake Modes	Manual Filling, Pipeline Filling
Refrigerant	R290

Design & Build

Key Features

- UV Sterilization
- Digital Display with Temperature & Countdown
- Transparent Viewing Window
- Water Resistant Touch Control Panel
- Triple Ventilation System
- Copper Evaporator with Nickel Plating

Product Dimensions

36 x 35 x 42.3 cm

Packing Dimensions

41.0 x 55.0 x 50.0 cm
