Overview

Professional Induction Cooking Solution

This high-performance commercial induction cooktop is engineered for durability and precision in demanding kitchen environments. Featuring a robust stainless steel housing and a high-grade ceramic glass surface, it offers reliable heating with advanced safety protections. With 13 levels of power adjustment, it provides the versatility required for various professional cooking techniques.

Electrical Specifications

Voltage	220V-240V
Frequency	50/60Hz
Maximum Power	3500 W

Performance

Power Adjustment Levels	13
Power Range	400W - 3500W

Design & Build

Physical Dimensions	415 x 326 x 110 mm
Materials	Grade-A Ceramic Glass, Stainless Steel
Form Factor	Flat Top

Features & Control

Control Interface

- Touch Control
- LED Display

Safety Protections

Overheat Protection • Overvoltage Protection • Overcurrent Protection
