

Commercial Pizza Preparation Table

This commercial pizza preparation table is constructed with stainless steel and includes a refrigerated base. It features a raised rail to hold pizza toppings and is equipped with casters for mobility.

Product Overview

Professional Pizza Preparation Solution

This commercial refrigerated pizza preparation table is engineered for high-efficiency kitchen workflows. Featuring a robust stainless steel construction, it provides a durable and hygienic surface for assembly while keeping essential ingredients crisp in the integrated refrigerated base. Designed with mobility and convenience in mind, it is an essential asset for any fast-paced commercial pizza operation.
