Product Overview

Professional Pizza Prep Solution

This commercial pizza table combines a spacious refrigerated storage cabinet with a dedicated prep counter to streamline kitchen workflows. Constructed with high-quality stainless steel and solid bullet feet, it offers a robust and durable design suitable for demanding culinary environments. The unit features efficient static fan cooling and precise PCB-based temperature control to ensure optimal food preservation.

Technical Specifications

Cooling Technology	Static Fan Air Cooling
Refrigerant	R134a
Control Operation	PCB Control

Construction & Design

Build Material	Stainless Steel
Base Construction	Stainless Steel Solid Bullet Feet

Features

Key Features	Eco-friendly Design, Large Volume, Dual-function, Customization Available
