

# Commercial Refrigeration Compressor

These refrigeration compressors are energy efficient and reliable. They are suitable for household refrigerators and freezers, air-conditioning, and commercial refrigeration applications.

## ADDITIONAL IMAGES

## Overview

### Commercial Refrigeration Solutions

This range of high-performance commercial refrigeration compressors is engineered for medium and high-temperature applications. Designed for versatility, these units support both air-cooling and water-cooling configurations, making them suitable for diverse environments including aquatic products processing, small-scale cold storage, and central air conditioning systems.

## Applications

### Suitable Applications

Medium Temperature Refrigeration, High Temperature Refrigeration, Aquatic Products Industry, Cold Storage, Central Air Conditioning

## Technical Specifications

### Model Capacity Data

Model	Horsepower
ZB48KQ-TFD-558	6.85HP
ZB48KQE-TFD-524	6.85HP
ZB58KQ-TFD-524	8HP
ZB58KQE-TFD-524	8HP
ZB66KQ-TFD-524	9HP
ZB66KQE-TFD-524	9HP
ZB76KQ-TFD-524	10HP
ZB76KQE-TFD-524	10HP

### Cooling Configurations

- Air-cooling
- Water-cooling
