

Commercial Rice Cooker

This commercial rice cooker is designed for efficient and consistent rice cooking. It features keep-warm and cooking indicator lights, durable stainless steel construction, and a non-stick inner pot for easy cleaning.

Product Overview

Commercial Grade Rice Preparation

This high-efficiency commercial rice cooker is engineered for consistent performance in demanding environments such as restaurants, cafeterias, and catering services. It features an intuitive one-touch operation system with clear indicator lights for cooking and keep-warm functions. Built with durability in mind, the unit includes a high-strengthened non-stick inner pot and a reinforced lid designed to prevent steam leakage.
