

Commercial Soft Serve Ice Cream Machine

This commercial machine dispenses soft serve ice cream with three heads. It features stainless steel construction, a digital display, and adjustable overrun control.

Product Overview

High-Performance Soft Serve Solution

This commercial soft serve ice cream machine is engineered for high-volume production in demanding environments such as restaurants, cafes, and ice cream parlors. Featuring a durable stainless steel construction, it includes three dispensing heads for versatile serving options. The unit is equipped with advanced controls, including independent cylinder freezing and adjustable overrun settings, to ensure consistent texture and quality in every serving.
