Product Overview

High-Performance Commercial Cooling

This commercial stand fan is engineered for reliability and performance in demanding environments such as warehouses, large outdoor spaces, and industrial facilities. Featuring an effectively closed motor design, it offers enhanced protection against dust and moisture while maintaining low-noise operation. The unit includes an optimized four-blade ABS structure and three speed settings to deliver powerful, consistent airflow.

Technical Specifications

Motor Design	Closed Motor
Speed Settings	3
Blade Count	4
Blade Material	ABS Plastic

Features & Safety

Design Highlights

- Low noise operation
- Space-saving foldable support
- Adjustable height
- Oscillating function

Safety Features

Over-heat Protection, Protective Wire Cage

Applications

Recommended Use Cases

Warehouses • Industrial Facilities • Large Outdoor Spaces • Commercial Areas
