

Common Rail Diesel Engine Injector Nozzle for Bosch Systems

This injector nozzle is designed for common rail diesel engines using Bosch systems. It provides optimal fuel atomization for efficient combustion, leading to improved engine performance and reduced emissions.

Product Overview

Precision Engineered Injector Nozzle

This high-performance common rail diesel engine injector nozzle is designed specifically for compatibility with Bosch systems. Engineered for precision, it ensures optimal fuel atomization and efficient combustion, contributing to improved engine performance and enhanced fuel economy. Manufactured to meet rigorous quality standards, this component offers reliable and durable operation in demanding diesel engine applications.

Technical Specifications

Body Material	Steel
Fuel Compatibility	Diesel
Weight	0.04 kg
Cylinder Type	Multi-cylinder
Carburettor Type	Downdraft
Nozzle Stroke	Standard
Certifications	ISO9001, TS16949
Warranty	6 Months

Reference Data

Reference Numbers

Item Type	Reference No.	Stumping No.
Injector Nozzle	105007-1120	DN0PDN112
