

# Common Rail Fuel Injection Nozzle

## DLLA148P1688

This is a high-precision common rail nozzle engineered for fuel injection systems. It is manufactured to ensure reliable performance and efficient combustion in diesel engines.

### Product Overview

#### High-Precision Common Rail Nozzle

This high-precision common rail fuel injection nozzle is engineered for optimal fuel delivery and efficient combustion in diesel engines. Manufactured under strict quality controls, it is designed to provide reliable performance and an extended operational lifespan. This part is a key component for maintaining the power and efficiency of modern diesel fuel injection systems.

### Cross-Reference Compatibility

#### System Compatibility

Injector Part Number	Valve Part Number	Nozzle Part Number	Engine Application
0 445 120 110	F00RJ0 2806	DLLA148P1688	YC4E, YC6J_EU4
0 445 120 156	F00RJ0 2806	DLLA148P1815	YC6L_EU3
0 445 120 163	F00RJ0 1692	DLLA150P1828	YC6G_EU3
0 445 120 291	F00RJ0 2806	DLLA150P2123	YC4E_EU3
0 445 120 225	F00RJ0 2806	DLLA150P2259	YC4G_EU3
0 445 120 380	F00RJ0 1692	DLLA147P2445	YC6G_T3
0 445 120 379	F00RJ0 1692	DLLA147P2444	YC6JA-2V
0 445 120 149	F00RJ0 1692	DLLA152P1768	WD10

### Product Details

#### Compatible Component Types

Nozzles, Elements & Plunger, Delivery Valve, VE-pump head & rotor, Cam disk, Control shaft, Feed pump, Magnet valve, Unit pump
