Product Overview

Precision Common Rail Injector Spool Valve

This high-precision slide valve is designed for critical fuel injection control in heavy-duty common rail systems. Engineered for compatibility with specific Caterpillar engine series, it restores optimal fuel atomization and combustion efficiency. The robust construction ensures long-term reliability in demanding construction and mining environments.

Technical Specifications

Precision-engineered spool valve for consistent fuel pressure and flow regulation.

Valve Type	Slide valve
Material	High speed steel

Compatibility

Compatible Engines	C7, C9
Excavator Models	324D, 325D, 329D, 330D, 336D

Logistics

Available Shipping

- DHL
- FedEx
- UPS
- TNT
- EMS
- ARAMEX
