

Communication Wire Spool in Dispensing Box

Communication wire is dispensed from a convenient pull-box. The box includes a window to view remaining cable and fields to record installation details.

Overview

Efficient Cable Management Solution

This communication wire spool is housed in a specialized dispensing box designed for professional installation efficiency. The integrated 'Pull Here' feature ensures smooth cable deployment, while the built-in viewing window allows for quick inventory checks. The box also includes dedicated fields for tracking installation dates and remaining cable length, making it an ideal choice for organized job sites.
