

Commuter Motorcycle with Luggage Rack

This is a standard commuter motorcycle designed for street use. It features a single-cylinder engine, chrome accents, and a rear luggage rack.

Overview

Reliable Commuter Performance

This commuter motorcycle is designed for efficiency and daily utility, featuring a robust single-cylinder engine available in 125cc or 150cc configurations. Its classic design incorporates practical elements like a rear luggage rack and durable fenders, making it an ideal choice for urban transport and light cargo needs. With chrome accents and a reliable build, it balances aesthetic appeal with everyday functionality.
