

Commuter Motorcycle with Step-Through Frame

This commuter motorcycle features a step-through frame design. It is equipped with telescopic front forks and dual rear shock absorbers.

Overview

Reliable Urban Commuter

This commuter motorcycle features a practical step-through frame design, making it an excellent choice for daily urban transport and utility tasks. Built with an air-cooled engine and durable suspension, it offers a balanced combination of economy and functionality. Its classic aesthetic, highlighted by a red fuel tank and gold-colored rims, ensures it stands out while maintaining a professional appearance.
