

Compact 10x25 Binoculars

These compact binoculars offer 10x magnification with 25mm objective lenses. They provide a 303 ft field of view at 1000 yards, making them suitable for outdoor activities like bird watching and hiking.

Overview

Compact Optical Performance

These compact binoculars are designed for portability without compromising on clarity. Featuring 10x magnification and 25mm objective lenses, they deliver a bright and clear viewing experience suitable for a wide range of professional and recreational applications. Their ergonomic design ensures a comfortable, secure grip, making them an ideal choice for field observations, sporting events, and outdoor activities.
