

Compact 3-Door SUV with 1.6L Engine and Manual Transmission

This compact SUV features a 3-door configuration and a 1.6L engine paired with a manual transmission. Its chassis is engineered for durability and handling, making it suitable for various driving conditions.

Overview

Compact 3-Door SUV Performance

This compact 3-door SUV is engineered for versatility, combining a 1.6L engine with a responsive 5-speed manual transmission. Designed with a unitary body structure and robust suspension, it offers a balanced driving experience suitable for various conditions. With its efficient fuel delivery system and capable off-road geometry, it provides a practical solution for both urban navigation and light off-road exploration.
