

# Compact Air Purifier for Home Use

This compact air purifier is designed for home use. It features a multi-stage filtration system to remove dust, pollen, and other airborne particles.

## Overview

### Compact Air Purification Solution

This compact air purifier is specifically engineered for home environments, offering an efficient solution for improving indoor air quality. It utilizes a multi-stage filtration system, including HEPA and activated carbon layers, to effectively capture dust, pollen, and various airborne particles. Designed for versatility, it features adjustable fan speeds and a convenient filter replacement indicator, making it an ideal choice for small to medium-sized rooms.

## Performance Metrics

### Coverage Area

**200 sq ft**

Coverage Area

Noise Level Range	30-50 dB
-------------------	----------

Power Consumption	30 W
-------------------	------

## Filtration System

### Maintenance Features

- Filter replacement indicator
- Adjustable fan speeds

Filtration Technologies	HEPA, Activated Carbon
-------------------------	------------------------

## Physical Dimensions

### Unit Dimensions

Dimension	Value
Width	10 in
Depth	6 in
Height	18 in
