

Compact Audio Buzzer

This is a compact audio buzzer. It measures 70mm in length and 56.25mm in height.

Product Overview

Compact Audio Component

This compact audio buzzer is engineered for precise acoustic signaling in industrial or electronic applications. With a robust design featuring standardized mounting dimensions, it ensures reliable integration into various systems. Its versatile mechanical interface makes it an ideal choice for professional-grade audio output requirements.

Technical Specifications

Mounting Specifications

- 3-M3-7H mounting interface
- M3.5-6g threaded connection

Key Dimensions

Dimension Description	Value (mm)
Reference Width A	25
Reference Width B	18.5
Reference Width C	10.5
Reference Width D	8.9
Reference Width E	24.1
Reference Width F	52.5

Overall Length	70 mm
Overall Height	56.25 mm
Category	Audio Component, Buzzer, Industrial Speaker
