

Compact Battery Charger with UK Plug

This compact battery charger features a UK plug. It is designed with a black plastic housing and standard UK three-pin plug configuration.

Product Overview

Compact Smart Battery Charger

This compact smart battery charger is designed for efficient and reliable power management. Featuring a standard UK three-pin plug configuration, it is built for easy integration into existing power setups. The unit supports a wide input voltage range, making it versatile for various international power standards while maintaining a steady output for battery charging needs.

Technical Specifications

Model Number	HD-2400500UK
Input Voltage Range	100-240V AC
Input Frequency	50/60Hz
Max Input Current	0.2 A
Output Voltage	4.2 V
Output Current	500 mA

Compliance and Standards

Certifications	CE
Country of Origin	China

Design Features

Plug Configuration	UK 3-Pin
Housing Material	Plastic
