

Compact Beverage Chiller

This compact beverage chiller is designed to keep drinks cold. It is ideal for displaying brand preferences with logos.

Overview

Compact Beverage Chiller Solution

This compact beverage chiller offers a versatile cooling solution suitable for professional environments. Designed with a sleek, free-standing footprint, it features durable pre-coated metal exterior construction and a plastic interior for efficient thermal management. The unit utilizes static cooling for silent operation and provides professional customization options, including branding and various door finish styles.
