

Compact Beverage Display Cooler

This compact beverage display cooler features a transparent door, ideal for showcasing and cooling drinks. It also features a temperature control system for optimal preservation.

Overview

Compact Beverage Display Solution

This compact beverage display cooler is engineered for efficient commercial and residential use. It features a reliable compressor-based cooling system with manual temperature control, ensuring your products are kept at the perfect temperature between 0 and 10°C. With its optimized interior dimensions and transparent door design, it provides excellent visibility while maintaining energy efficiency.

Performance

Cooling Performance

0 °C Min Temperature	10 °C Max Temperature	90 W Input Power
--------------------------------	---------------------------------	----------------------------

Energy Consumption: 1 kW•h/24h

Climate Class: N

Technical Specifications

Refrigerant: R134a/52g

Voltage Support: AC110V/60Hz, 200-240V/50Hz

Dimensions

Interior Dimensions

Section	Dimensions (WxDxH)
Main Compartment	360x325x525 mm
Secondary Compartment	360x80x205 mm

Product Dimensions (WxDxH): 440x420x810 mm
