

Compact Beverage Refrigerator with Dispenser

This beer cooler features a compressor and provides good cooling. It uses HCFC-free refrigerant and has a wide climate design.

Product Overview

Compact Cooling Solution

This compact beverage refrigerator is expertly designed for countertop use, making it an ideal cooling solution for small spaces or personal settings. Featuring a sleek black exterior with sophisticated silver accents, it blends modern aesthetics with functional utility. The inclusion of a dedicated beverage dispensing tap allows for easy access and enhanced convenience for users.
