

# Compact Ceramic Space Heater

This compact ceramic space heater is designed for personal use, providing efficient and targeted warmth. Featuring adjustable thermostat control, it allows users to customize the heat output to their desired comfort level.

## Product Overview

### Efficient Personal Heating

The FHL-04 series ceramic space heater is engineered for targeted, efficient warmth in personal or small office environments. Featuring dual heating power settings and a dedicated cool fan mode, it offers year-round versatility for both heating and air circulation. Safety is prioritized with an integrated automatic overheat cut-out system and a cool-touch handle for safe handling during operation.

## Performance Metrics

### Heating Performance

**1000 W**

Low Heat Setting

**2000 W**

High Heat Setting

## Technical Specifications

Model Number	FHL-04
Power Cord Type	PVC

## Safety & Features

### Operational Modes

- 1000W Heating
- 2000W Heating
- Cool Fan Mode

Safety Features	Overheating safety cut-out, Cool touch handle, Automatic temperature control
Power Indicator	Yes
