

Compact Ceramic Space Heater

This compact electric space heater is designed for personal use. It features a safety grill, adjustable thermostat, and tip-over protection.

Product Overview

Compact Ceramic Space Heater

The FHL-106A series ceramic space heater is designed for efficient and versatile climate control in small rooms or office environments. Featuring dual heating modes of 1000W and 2000W, it offers customizable warmth alongside a cool fan function for year-round utility. Safety is prioritized with automatic temperature control, an overheating safety cut-out, and a cool-touch handle for safe handling.
