

Compact Ceramic Space Heater with Digital Controls

This compact ceramic space heater is designed for personal use. It features digital controls, an LED display, and safety features like overheat protection and a tip-over switch.

Overview

Compact Ceramic Comfort

The PHC160BR is a high-efficiency ceramic space heater engineered for personal environments and small rooms. It combines rapid, consistent heating performance with precise digital controls, allowing users to tailor their comfort levels easily. Designed with safety as a priority, the unit includes automatic overheat protection and a tip-over shutoff switch, making it a reliable solution for supplemental heating.
