

Compact Countertop Display Freezer

This compact freezer is designed for countertop use in commercial or residential settings. It features a transparent glass door, adjustable wire shelves and a temperature control system.

Product Overview

Compact Countertop Display Freezer

This compact countertop freezer is an ideal solution for commercial or residential environments where space is at a premium. Designed for high visibility, it features a transparent glass door that allows customers to easily view frozen goods. The unit includes adjustable wire shelves and a reliable temperature control system, making it perfect for merchandising ice cream or other frozen products.
