

Compact Cylindrical PTC Heater with Over-heat Protection

This compact PTC heater is designed for personal or small space heating. It features a cylindrical shape with a perforated metal housing for safety and even heat distribution.

Product Overview

Compact and Reliable Heating Solution

This cylindrical PTC heater is designed for efficient, safe warming in small spaces like offices or personal living areas. Utilizing advanced Positive Temperature Coefficient technology, it ensures consistent heat distribution through its durable, perforated metal housing. It is equipped with essential safety features, including overheat protection, to provide peace of mind during extended operation.

Technical Specifications

Heating Technology	PTC (Positive Temperature Coefficient)
Safety Features	Overheat Protection, Perforated Housing
Form Factor	Cylindrical
Operating Modes	Yes

Applications

Recommended Environments

- Home
- Office
- Dormitory
