

Compact Dehumidifier with Humidistat

This compact dehumidifier removes 10 to 12 liters of moisture per day. It features a removable 2.5L water tank with a full bucket indicator and a threaded drain hose connection for continuous external drainage.

Overview

Compact Moisture Control

This compact dehumidifier is engineered to efficiently remove excess moisture from indoor environments, helping to prevent mold and mildew growth. Featuring a 10-12L/day extraction capacity and an integrated humidistat, it offers precise control over your indoor climate. Its portable design, complete with a top-mounted handle, makes it an ideal solution for bedrooms, bathrooms, and basements.
