Product Overview

Compact Air Purification

This compact desktop air purifier is designed for personal use in small spaces, such as offices, bedside tables, or during travel. It features a robust multi-stage filtration system that effectively captures dust, pollen, pet dander, odors, and VOCs to promote a healthier environment. The device offers convenient USB power, quiet operation for nighttime use, and an integrated air quality sensor that automatically adjusts performance.

Filtration System

Filtration Stages

- Pre-filter
- HEPA filter
- Activated carbon filter
