

Compact Dry Iron with Non-Stick Soleplate

This dry iron is compact and lightweight, designed for efficient and convenient ironing. It features a non-stick soleplate for smooth gliding over fabrics and an adjustable temperature control for various fabric types.

Overview

Efficient and Compact Ironing Solution

This compact dry iron is engineered for professional-grade efficiency in a lightweight design, making it ideal for quick touch-ups and smaller ironing tasks. It features a high-quality non-stick soleplate that ensures smooth gliding over various fabric types without snagging. With adjustable temperature controls and an ergonomic handle, it provides both precision and comfort for daily garment care.
