

Compact Electric Oven with Hot Plate and Coffee Pot

This electric oven features upper and lower quartz heating tubes and bakes at temperatures from 90 to 230 degrees Celsius. It includes a hot plate for teppanyaki and a coffee pot for brewing coffee or tea.

Overview

Compact Multi-Function Kitchen Station

This versatile 3-in-1 kitchen appliance combines a compact electric oven, a coffee maker, and a top-mounted teppanyaki grill plate into a single, space-saving unit. Designed for efficiency, it features independent controls for the oven and coffee maker, allowing users to brew beverages while baking or grilling. With adjustable temperature settings and quartz heating technology, it is an ideal solution for small kitchens, offices, or hospitality settings requiring quick, multi-purpose food preparation.

Oven Performance
