

Compact Electric Space Heater

This compact electric space heater is designed for personal use. It features adjustable heat settings and a durable plastic housing with a protective grill.

Overview

Compact Electric Space Heater

This compact and portable electric space heater is designed for efficient personal or small-space heating. Featuring a durable grey plastic housing and an integrated carry handle, it offers both convenience and mobility. The unit utilizes radiant heating elements protected by a secure black wire mesh grill, with simple control knobs for easy heat adjustment.
