

Compact Excavator

This compact excavator is ideal for small construction and landscaping projects. It has a maximum digging height of 2350mm, a transportation length of 2100mm, and a shovel width of 720mm.

Overview

Compact Excavator Efficiency

This compact mini excavator is designed for agility and precision in confined spaces. Ideally suited for small construction sites and landscaping projects, it offers a robust build while maintaining a small footprint for easy transport. Its optimized dimensions ensure high maneuverability without compromising digging performance.

Dimensions

Max Digging Height	2350 mm
Length (Transportation)	2100 mm
Height (Transportation)	1550 mm
Caterpillar Length	1140 mm
Width of Shovel	720 mm
