

Compact Fluorescent Lamp

This compact fluorescent lamp is designed to replace an incandescent lamp. It uses a tube which is curved or folded to fit into the space of an incandescent bulb, and a compact electronic ballast in the base of the lamp.

Product Overview

Energy-Efficient Lighting Solution

This compact fluorescent lamp (CFL) is engineered to serve as a direct, energy-efficient replacement for traditional incandescent bulbs. By utilizing a curved or folded tube design and a compact electronic ballast, it delivers equivalent visible light while consuming significantly less electricity. Designed for longevity and cost-effectiveness, this lamp offers a sustainable lighting choice for various fixtures.
