

Compact Fluorescent Light Bulbs

Compact fluorescent light bulbs (CFLs) are energy-efficient alternatives to incandescent bulbs. These bulbs feature a screw base for easy installation into standard light fixtures.

Product Overview

Energy-Efficient Lighting Solution

These compact fluorescent light bulbs provide an efficient alternative to traditional incandescent lighting. Designed for versatility, they utilize multiple glass tubes to maximize surface area and light output. Their standard screw base ensures easy installation across a wide range of professional and commercial light fixtures.

Key Features

Benefits

- Energy-efficient performance
- Extended operational lifespan
- Reduced energy consumption
- Standard screw base compatibility

Technical Details

Design	Multi-tube glass structure
Usage	Energy-efficient, Standard base, Long-life
